### Job Description

#### **Position:**

The project controller is a key member of the project team and works directly with the project manager to help define the project's goals and objectives; create and maintain a project's budget and schedule, analyse progress reported against the work schedules; and recommend actions to improve progress. My client is a world leader in the development of solutions in the Maritime market, with an emphasis on the environmental impact and improvements that their solutions provide.

As a project controller, you are responsible for commercial follow-up of the projects from project start to end of the warranty period in collaboration with our project managers.

#### **Main Areas of Responsibility:**

- Project follow-up with a focus on margins and cash flow
- Contract management in project
- Change management
- Risk and opportunity management
- Billing
- Cost monitoring and reporting.
- Participate in customer negotiations; both domestically and abroad

#### **Qualifications / Requirements:**

- Higher financial education at minimum bachelor level
- Good contract understanding and experience with projects  
Relevant work experience in controlling

#### **Salary**

700,000
